PROJECT RISK MANAGEMENT AND THREAT ASSESSMENT

Acts of negligence and intentional harm have a significant impact upon a corporation's reputation, share value and business continuity. Political and economic instability, urban and international terrorism, eco-warriors and 'monkey wrenching' are estimated to cost the Oil and Gas industry millions of dollars a year.

Canpro professionals are highly skilled and experienced at identifying risk and vulnerability considering site-specific and geo-political profiling. Prioritized recommendations are developed and implemented based upon a cost/benefit analysis with realistic preventative and pro-active approaches for all your corporate assets.

- Threat Risk Assessments (TRA's)
- Security and Safety Planning & Implementation
- Site Specific Reviews
- Kidnap & Ransom Solutions
- Travel Risk & Intelligence Gathering
- Counter-Terrorism Surveys
- Global Risk Assessment & Management Protocols
- Training & Awareness Solutions
- Fire Safety & Compliance Audits

DRUG AND ALCOHOL DETECTION AND ENFORCEMENT

The issues and liabilities of drug and alcohol use within the Oil and Gas industry are extensive and potentially fatal in already high risk environments. Bill C-45 became law on March 31, 2004 and brought with it direct civil and criminal liability for management.

"2.17.1 Every one who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task."

Canpro Risk Solutions provide experienced search, detection and enforcement teams, to provide the due diligence required to help mitigate this risk.

- Specialist Drug, Firearms & Explosive Detection Dogs
- Air Marshal & Airport Search Teams
- Specialist Search Teams (Premises, Vehicles & Personnel)
- Portable Metal Detection & X-Ray Systems
- Protocol & Procedure Consultancy
- Electronic Monitoring of Vehicles, Personnel & Loads through GPS Tracking
- Drug & Alcohol Testing
- Post-Incident Testing & Investigation

"1 in 15 searches at 'dry' facilities results in a seizure of drugs or alcohol"

AIR MARSHAL AND ROAD SAFETY ENFORCEMENT

Canpro Risk Solutions provide journey management solutions tailored for the oil and gas industry. Our team of professionals are highly trained and experienced in all forms of transport security and management. Whether by air, road or sea, Canpro can provide risk assessments, planning and security personnel to minimize your company's exposure.

- Routine, Non-Routine & Escalating Exposure Journey Planning

LOGISTICS AND HIGH VALUE EQUIPMENT MANAGEMENT

Loss, theft and damage to high value equipment is a significant and complex challenge with a wide range of negative consequences. The cost of repair and replacement is in addition to the 'down time' costs. Much of the risks to an organization, its personnel, assets and clients are predictable and avoidable. Canpro professionals work with complex organizational asset networks to identify the risks and vulnerabilities. Our unique systematic approach provides significant cost savings, increased efficiency and 'up time'.

- Enhanced Policies & Procedures
- Vendor Selection & Screening
- Penetration Testing & Audit of Existing Systems
- Pre-Employment Screening & Security Clearance
- Infrastructure Modifications
- Fire Safety & Compliance Audits
- Electronic Monitoring of Equipment & Vehicles through GPS Tracking
- CCTV Solutions including Remote Access & Monitoring Technology
- Specialized 'Trail' Camera Systems with Live Monitoring
